Education

Birla Institute of Technology, Mesra, Btech in Computer Science   2021 – 2025
- GPA: 8.48 (6th sem)

Skills

Frontend Languages: HTML5, CSS3, Bootstrap, Tailwind CSS, Javascript, React.js, WordPress
Backend Languages: C Programming, Java, MySQL Database, MongoDB, Node.js
Tools: VS Code, Git and GitHub, LATEX, Vercel

Work Experience

Software Developer Intern, MetaFox Technologies   06/2024- 09/2024
- Led the development of 6 innovative web and software projects, handling both frontend and backend tasks.
- Collaborated actively with the project manager and a team of 5 dedicated developers, reducing project delivery time by 25%.
- Optimized and thoroughly refactored codebases, significantly improving overall performance and scalability by 15%.
- Tackled 12 complex web application challenges, significantly strengthening and enhancing technical expertise.

Frontend Intern, Haripratap Trust Memorial,   11/2023- 01/2024
- Designed a website that boosted volunteer sign-ups by 25% through improved information accessibility.
- Developed and created over 10 unique frontend components for Haripratap Trust Memorial's various web applications, collaborating closely with both design and development teams.

Resarch & Publications

Technological Fusion for Enhanced Performance and Comfort in Smart Footwear Design   03/2024
Namit Goyal, Vaishnavi Kumari, Mohit Parashar   🎓 Certificate Link
- Led a team of 3 in developing an innovative Smart Shoes Prototype, integrating 4 sensors (weight, pressure, BMI, step tracking), achieving 95% accuracy and a 20% improvement in tracking precision.

Projects

Personal Portfolio Website   ⭘ Github Link
- Launched a personal portfolio website using React.js, effectively showcasing professional projects and skills, which resulted in a remarkable 50% increase in user engagement.
- Expertly revamped web design and enhanced interactive elements, significantly boosting user interaction by 40%.

HungryHive   ⭘ Github Link
- Engineered a sophisticated web application using HTML, CSS, JavaScript, React.js, Tailwind CSS, and MongoDB, achieving a notable 30% improvement in user activity.
- Crafted responsive and interactive frontend components, resulting in a notable 25% increase in user interaction.
- Optimized overall performance across various devices, achieving an impressive 95% user satisfaction rate.

YourCityLives   ⭘ Github Link
- Built a freelancing project using React.js and Tailwind CSS, significantly boosting user engagement by 40%.
- Introduced responsive components, drastically cutting bounce rates by 20% and increasing time on site.
- Implemented interactivity and responsiveness, remarkably leading to a 40% rise in positive feedback.

Achievements & Responsibility

- Won the "Battle of Bytes" coding competition with 11 teams participating.
- Achieved badges at Leetcode, placing within the top 15% Of All Global Active Users Which Has 1000k+ Registered Users.
- Campus Ambassador, Kshitij IIT Kharagpur: Promoted Asia's largest techno-management fest to 100+ students.
